- Desire for personal development and improvement

Nemanja Kostovski

About Me

I'm looking for a change in my carrier and that is why I decided to start learning programming and I would like to become a part of a team where I can grow and learn a lot from my colleagues. My main interest lies in Web Development, and I also like AI. I'm mainly focused on JavaScript and React, but that doesn't mean that I'm not open to working with other technologies.
